11th World Congress on Green Chemistry and Technology

July 09-10, 2020 Webinar

Editorial Note

We had a huge success with the completion of 11th World Congress on Green Chemistry and Technology July 09-10, 2020 Webinar. The conference was organized around the theme: *“Sustainable Chemistry and its key role in waste management and essential public service to fight against COVID-19”* which got magnificent response. With the support and guidance of Organizing Committee Members and Editorial Board Members and astonish presentations of all participants this prominent summit became more impressive.

Conference Series LLC Ltd would like to convey a great appreciation to following Organizing Committee Members, Honorable guests and Keynote speakers.

We would like to thank all the participants and following keynote speakers:

- Prof. Lucian Lucia, NC State University, United States.
- Isha Sharma Queensland University of Technology, Australia.
- Andres Moreno Moreno Universidad de Castilla-La Mancha UCLM, SPAIN
- Adam Zarecki, Polish Academy of Sciences, Poland
- Sanjay K. Sharma, Department of Chemistry, JECRC University, India

The Conference Series LLC LTD Green Chemistry Conferences aim to bring together the prominent researchers academic scientists, and research scholars to exchange and share their experiences on all aspects of Green Chemistry. It is conjointly a knowledge domain platform for researchers, practitioners and educators to gift and discuss the foremost recent advances, trends, and issues in addition as sensible challenges and solutions adopted in the fields of Green Chemistry.
